FACULTY

Dr. Alwyn D'Souza

Dr. Yves Saban

Dr. Pèter Palhazi

Dear friends and colleagues,

It is with great pleasure that I present the next Dissection Course on Facial Rejuvenation Surgery which will take place on January 13th and 14th 2023 at "Istituto di Anatomia dell'Università di Torino".

This new edition will have guests of international fame, such as Dr. Alwyn D'Souza, Dr. Yves Saban and Dr. Pèter Palhazi. They will work with me on the dissection of the prepared anatomic samples and share their valuable experience with us.

I would like to give special thanks to AIAD and in particular to the President Dr. Maurizio Catalani for hosting us in this prestigious institute.

Michele Pascali

January 13th

8.30-11.00

Upper Third

Anatomy

Temporal lift: tran-temporal vs hairline approach

Direct brow lift

Upper blepharoplasty

11.00-11.30

COFFEE BREAK

11.30-13.30

Periorbital and Middle Third

Anatomy

Lower blepharoplasty
